A Railroad Line from San Diego to a Point in Sonora.

THE SHORTEST LINE TO THE ATLANTIC.

A Sheriff Surrounds a Stump—Chicago and New York Notes—From Far Across the Sea—Other News.

[Associated Press Dispatches.]

SAN DIEGO, January 7.—Thomas L. Rogers, Vice-President of the California Southern Railroad, has just received from the Mexican Government for which he applied in May last, for the construction of a railroad and telegraph line from a convenient junction point with the Sonora Railway to the Port of San Diego, Cal. The line of the proposed road crosses the State of Sonora, touching at Port Ysabel on the Gulf of California, crossing the Colorado River at a practicable point and thence across lower California to the Pacific. The length of the whole line with branches to Altar in Sonora and San Rafael in lower California will not be far from FOUR HUNDRED MILES.

This concession is substantially a duplicate as to the requirements and privileges of that given to General Grant for a line through the State of Oajaca. Seven years are allowed for the completion of the entire road. The survey must begin within four months. Twenty-five miles of the road must be constructed within two years, at least sixty miles at the end of the third year, and seventy-five miles each year thereafter. No subsidy was asked, but a freight and passenger tariff about fifty per cent. higher than that allowed the Mexican Central and Sonora railroads is established. All material for the construction and operation of the railroad and telegraph enters duty free for fifteen years, and the capital stock and all property of the company

EXEMPT FROM TAXATION

For fifty years. This line will be the natural and shortest outlet to the Pacific for the Atchison, Topeka and Santa Fe road now nearly completed to the town of Calabasas in Arizona, near the Sonora line, to which point the new line will be extended. The importance of the proposed road can hardly be overestimated by the capitalists who have already invested so largely in railroads in Mexico and Arizona. The concession is very liberal in terms and is considered one of the most valuable that has yet been granted by the Mexican government, this being the only east and west franchise that allows termini in the United States. The road will form a part of the

ABSOLUTELY SHORTEST LINE

That can be drawn in U. S. territory between the waters of the Atlantic and Pacific Oceans. It has long been known that the best route for a railroad from El Paso to the harbor was below the Mexican line, but heretofore that route has not been available. Now that it has been secured there can be little question that the concession will be immediately put into operation.

CHICAGO CULLINGS.

Smallpox—An Improvement in Public Halls and Theatres.

CHICAGO, January 7.—There were 118 fatal cases of smallpox during December in Chicago, and 370 other deaths from zymotic disease. The total number of deaths was 1,020. The death rate from small-pox has decreased from 175 in October to 118 in December. There are 110 cases now in the smallpox hospital.

INSPECTING THE THEATRES.

The report of the Committee of the Citizens' Association who have been inspecting the theatres since the Vienna disaster is very lengthy, and reviews in detail each theatre and public hall. The substance of the report is that the theatres and public halls are generally in far better condition now than they were at last inspection, and those reconstructed and newly erected since then show a decided improvement.

Captured in a Hollow Stump.

WATSONVILLE, January 7.—Deputy Sheriff John Gaffey and his posse arrived here to-day, after a five days' hunt in the mountains after the men connected with the recent attempt to murder Charles Rossio. Being informed about two o'clock this morning that a certain Mexican had concealed the fugitives, they compelled him to disclose their hiding-place, which was in the hollow stump of a large tree, by stringing him up until he was nearly choked to death. The posse then surrounded the stump and demanded their surrender. They were answered by a pistol shot. Firing then opened on both sides. One of the desperadoes was shot, probably mortally, but he made a dash and escaped temporarily in the darkness. The other, Ignacio Tejada, then surrendered, and was brought to town, but was run off by the under guard on the Santa Cruz train to avoid lynching.

TUCSON, Jan. 7.—The Tombstone and Bisbee stage was attacked by four robbers this afternoon. A number of shots was exchanged but no one was hurt. The robbers got \$6,500.

Wires Down.

SAN FRANCISCO, Jan. 7.—The Eastern wires are in a bad condition, and the news is delayed.

FROM OVER THE SEA.

Parnell and Dillon Not to Enjoy the Freedom of Dublin.

[Associated Press Dispatches.]

LONDON, Jan. 5.—Regarding the mandamus to be applied for in the Court of the Queen's Bench, to quash the resolution conferring the freedom of the city on Dillon and Parnell, a Dublin correspondent of the Times says: If the points shall be established by the Queen's Bench that no one who is not a burgher can, under the existing clause of the Corporation Act, receive the freedom of the city, it would vitiate all the votes for such freedom which have been passed, if anybody arose to press it. Thus the names of Gladstone and General Grant would be erased from the roll, but it is questionable whether they would regret being deprived of the distinction, which has already lost much of its value by the alleged disaffection and disloyalty added to it by recent proceedings.

AMERICA AS AN EXAMPLE.

Discussing the question of home rule in Ireland, the Earl of Derby said: "America is not a despotic or reactionary country, but we know how she dealt with secession, and we see how soon and how thoroughly the traces of that sanguinary conflict disappeared. I do not see why we should show less determination or have less good fortune."

THE HEATHEN.

Intelligence from Acera confirm the report from Cape Coast Castle, of November last, of the massacre of two hundred young girls by order of King Ashanteh. The girls were purposely captured for the massacre in raids upon the neighboring tribes.

LORD LOHNE.

The Marquis of Lorne will sail for Canada Wednesday.

A SPORT SHOT.

The Murderer Tries to Escape, but is Caught.

AUBURN, Cal., Jan. 7.—About eight o'clock this evening Robert S. Alderson, a sporting man, was shot and almost instantly killed in a saloon by a man who is comparatively a stranger here. The two were playing cards, when without any apparent dispute being noticed by the by-standers, the man fired three shots at Alderson, who was unarmed. The murderer then ran out and up the street, and fired one shot at a watchman who intercepted and arrested him, but did no further damage. At the jail the murderer refused to make any statement as to what or who he is, and in fact seems to be playing the insanity dodge.

Will not Compromise.

NEW YORK, January 7th.—President Roberts, of the Pennsylvania road, has, it is said, rejected six propositions to settle the railroad war by arbitration, all of which had received the assent of the New York Central, the Erie, and the Baltimore and Ohio companies. Mr. Roberts assigns no reason and refuses to name any terms as satisfactory.

CASTROVILLE, Cal., January 7.—Constable John P. Casady and G. Tomasini, proprietor of the Swiss Saloon, got into a fight to-day, during which Casady shot and killed his opponent. Both had pistols. Casady claims to have acted in self-defense. Tomasini quarreled with him because Casady was recently instrumental in having him convicted of violating the Sunday law.

THE DAILY EMETIC.

The Guiteau Case Presents No New Developments.

WASHINGTON, Jan. 7.—There have been no new developments in the Guiteau case. Judge Cox is engaged in the preparation of his rulings upon law points. Davidge will then be ready to proceed at once with the opening argument for the prosecution, but it is thought an adjournment will be taken until Monday.

DAVIDGE OPENS THE ARGUMENT.

In Guiteau's case this morning Davidge opened the argument upon the legal points, and was followed with the closest attention. The jury were told by the Judge that they might be excused for to-day, but all preferred to remain and listen to the arguments. The prisoner assured his counsel that he would not ask to take any part in the legal arguments to-day, but should insist on making any comments he might deem necessary to set them right as the argument progressed. Guiteau pretended to read a letter, but in reality followed Davidge with the closest attention. The few interruptions he made were unnoticed by counsel, save when he called out: "I didn't know the difference between right and wrong. I had no chance; if I had I would not have done it." To this Davidge said: "We will come to that by and by."

WORTHY OF BARNUM.

Scoville has received a bona fide offer of \$4,000 from a medical gentleman for the body of Guiteau as soon as the law is executed—money down and buyer to take all chances. Guiteau is favorably impressed with the proposition, but thinks he ought to get more.

GUITEAU TO CLOSE THE CHAPTER.

Guiteau insists on closing for the defense.

THE DREADED APACHE.

Another Raid—A Large Number of Settlers Killed and Wounded.

[Associated Press Dispatches.]

GUAYMAS, Mexico, Dec. 30, via Tucson, A. T., Jan. 7.—The American Consul, Mr. Willard, has received a dispatch from Hermosillo, giving an account of a raid by the dreaded Apache in the district near Onava, between the Bronzos and Trinidad. A. M. Maynard and some sixteen others were among the killed and wounded.

THE ATTACK WAS MADE.

On a plain beyond Onava, known as the Palmitas, from the amount of palm trees in that region. The Indians got away with stock, arms, etc. A requisition from the Governor for all long range arms was promptly responded to by Mr. Randall, of this district. Half a car-load of arms and munitions went forward yesterday. Serious fears are felt that the raid may extend over the valley of Sonora River.

A LIGHT WEIGHT IN TROUBLE.

Jas Jenkins, an employee of the railroad, was found the other side of the mountains day before yesterday in a nude state and evidently insane. His true name is Con Williams, champion of light weights in the State of Nevada. He has been on a protracted spree but at the time of leaving had not drunk anything for several days. He was brought in by the city police and placed in the Civil Hospital.

Thomas L. Rogers, Vice-President of the California Southern Railroad, has been granted a charter for the building of a railroad and telegraph line from San Diego to a convenient point on the Sonora Railroad in Mexico.

A WASHINGTON special tells of an instance where a committee of politicians wasted an hour of the President's time in representing to him the necessity of appointing a man to office whom they had brought along with them, and later in the day "sneaked in without their man to inform the President that they did not want him appointed at all, but had had to pretend they did because the man had influence at home." Upon which the *Ohio State Journal* remarks with force and pertinacity as follows:

"Those politicians no doubt went home to harangue their constituents in the next canvass about honesty, integrity and efficiency in the public service. They probably pretended to be the President's friends and supporters, yet they deliberately wronged him in cheating him out of his time, and in trying to deceive him. They also wronged their protegee in making a fool of him. Finally they showed themselves to be hypocrites and cowards, and wronged the public service in trying to impose upon it a man they knew to be incompetent. They endeavored to shuffle off upon the President's shoulders responsibilities which they were unwilling to assume, and had he, through their advice made a mistake, they would have been the last to step forward and share the blame. This shows hows how the President is sometimes made a scapegoat and victim of other people's offenses."

A COMMISSIONER merchant of this city recently received a communication from an Eastern firm which manufactures buttons, negotiating for large quantities of Mexican pearl shells. This is another enterprise which could be inaugurated in our midst with but a small outlay of capital—the manufacture of pearl buttons. There is an abundance of the raw material along this coast and that of the Gulf of California. Who will investigate the matter?

WHILE President Arthur was so assiduously laboring to build a cabinet which should contain no presidential timber, he reckoned without his Secretary of War, Robert Lincoln, who now is without doubt the most prominent candidate for the Presidency in 1884, and one of the very few upon whom the factions of the party would unite. A mission to some neck of the woods on a foreign shore will be in order for him now.

The towns and counties in the southern part of the State are overrun with tramps.

The above is from the *Oakland Independent*. If it had been published a year ago there would have been some shadow of truth in it, but now it is simply a whooper. True, there are some idle people here, as there always has been and always will be everywhere, but the tramps are not overrunning us by any means. You had better take that back, Dan.

A NEW RAILROAD LINE.

By reference to our dispatches it will be seen that the franchise for a new Mexican railroad has been granted to Thomas L. Rogers, Vice-President of the California Southern railway. The road has its initial point at San Diego, and will connect at some convenient point with the Sonora railway in the State of Sonora. The line is one of very great importance, and our neighbor city is to be congratulated on its acquisition. The Mexican government has made very liberal concessions, the privileges being about the same as were conceded to General Grant's road, and is the only east and west road in Mexico with a terminus in the United States.

THE SUNDAY LAW.

An exchange briefly presents the following reasons for the enactment of a law making Sunday a legal holiday:

What we insist upon is:

1. The Sabbath is necessary to man.
2. The day of rest ought, for the sake of working people, to be fixed by law.
3. The day that will suit the majority best, is the day that the law ought to guard.
4. If each man could fix his own day it would obstruct and derange business.
5. Unless a legal holiday is prescribed by authority of the State, the people generally will have no day of rest.
6. Christians should keep it because God has commanded it.

If we do have a dry season it is to be hoped that among other lessons our sheep raisers will learn to utilize the wonderfully nutritious burr clover and store it for future needs. Many hundred dollars worth of valuable feed would thereby be saved which is now wasted.

The report of the massacre of two hundred young girls by the King of Ashantia, which reached this country a few months since, is now confirmed. They were captured by raids upon neighboring tribes.

THE NEW YEAR AT THE METROPOLIS.

A Tragedy—The Tea was too Strong—Optim Snugglers—The Herby Hunt—Mrs. Cooper and the Deacon.

(Regular Correspondence of the DAILY TIMES.)

SAN FRANCISCO, Jan. 5, 1882.

The New Year has come in the traditional style and the last lingering reminder of the festivities in the shape of bad headache and parched throat has passed away. There is something very humorous about this celebration of the national holiday. The good resolutions generally supposed to be made at this time are hopelessly broken in the endeavor to enjoy the day with the necessary zest, and New Year's Eve generally sees the station houses choked with maudlin revelers who have been "run in" for making night hideous. This year proved to be no exception to the general rule. There was a great amount of drunkenness and all the saloons were visited by a select delegation of thirsty persons. The result was that the main streets were converted into a temporary pandemonium. The old knickerbocker custom of making calls was generally observed, although each year sees a greater number of ornamental card hawks swinging from the front door. The ladies of San Francisco, however, are proverbially hospitable and there seems to be no danger that the Dutch fashion of serving the holiday will ever become obsolete here. It was a noble day for lively stable men and bootblacks, as the streets and sidewalks were covered with a thick paste mud, which bespattered everything within reach of opposing wheels.

A NEW YEAR'S EVE TRAGEDY.

After the holidays come general dullness, but from a news point of view this has not been a bad week. It has witnessed one of the ghastliest crimes perpetrated for some time and the largest seizure of smuggled goods in four years.

The city was startled on Saturday last with a horrible murder and suicide. George S. Reed, a clerk in the tea house of Macdonald & Co., succeeded in killing his mother-in-law and himself and dangerously wounding his little daughter, only eight years old. The girl still survives, lying between life and death. There is no theory to account for such a crime except that of Federal authority and investigation of the officers has been begun. There would certainly seem to be crookedness or criminal carelessness somewhere in this matter.

POKER IN THE PRESS CLUB.

Some very funny incidents have marked the existence of the Press Club of this city. It is an institution of recent growth, started by some ambitious reporters who wished to make it a genuine club of journalists. At first the directors of the club were few and far between, but they have been multiplying rapidly. The young club hired rooms on Washington street, furnished them, and started off in fine style. About a month ago the Treasurer appealed to have a second dividend upon him for rent which he had already paid. It was then found that the club had rented the premises from a man who had no authority to lease them, and the real owner talked of seizing the meagre furniture of the club. No sooner was this disaster averted than another appeared. The directors of the club are now considering the case of several members who have been detected in "stocking" the cards in poker, with one cent ante. The game was said to be wildly exciting in spite of the small stakes, and the enormity of the offense cannot be overlooked. It is feared that this scandal will be the death of the club and the dispersion of the dice players who may one day become the leading editors of the coast.

THE HERETIC AT REST.

The last act of the farce of the Cooper heresy case was played several weeks ago, when Mrs. Cooper and Deacon Roberts both resigned from the church which they had nearly rent in twain with their factions. It was the height of the ludicrous when the Deacon, finding that Mrs. Cooper had retired, wished to be received back into the fold which he had always kept in hot water. Dr. Humphill wisely determined to keep him out, as his promise of reform was not to be depended upon. Mrs. Cooper carried with her the good wishes of the church for which she had done so much, and on Tuesday evening the First Congregational Church (now in charge of Dr. Burrows, but formerly that of Dr. Stone) received her into membership. It is scarcely probable that in this new scene of action she will find a heresy hunter with so keen a scent as Deacon Roberts. This case excited great interest throughout the State and the press comments were not flattering to the Deacon. He used to brag that his investigation solely for the purpose of preventing the spread of vicious doctrines which Mrs. Cooper taught to her Bible class every Sunday. The questions of doctrine seemed very frivolous and rested mainly on the interpretation of certain passages of scripture. But beneath the whole was shown a personal venom and malice that the general public put its tongue in its cheek when the Deacon talked of his high notions in warning Mrs. Cooper. No church has yet been rash enough to receive him, and it is an open question whether his liberality with his money is sufficient compensation for his tendency to involve a church in periodical quarrels.

to use a shoe-horn to get his hat on, and when his companion told him what he had done he was horror struck. Now he is in deadly terror lest the managers of the bank should hear of it and cut off his official head.

A LARGE SEIZURE OF OPIUM.

The talk of the town to-day has been the big haul of opium made by two special policemen about midnight on Tuesday. The officers had been detailed to look out for wharf rats who had become very bold, plundering the lockers of yachts at the foot of Second street. The night was very dark and there was a heavy sea. The officers were sculling about the wharf when they saw a shadowy craft, a few rods away, loaded down to the water's edge and apparently propelled by muffled oars. They hailed her but got no response. They at once gave chase and after a brisk pursuit overhauled the stranger just as she was getting into the Second street slip. The boat proved to be loaded with over a ton of contraband opium put up in cases. Two men were found on board, and these the officers handcuffed. When the opium was brought ashore it was found to be worth fully \$20,000—making this the largest seizure for four years. As each of the officers is entitled to one-third of the value of the seized goods, it makes their individual share a trifle less than \$7,000—enough to set them up in a decent business and put them on the highway to political honors.

INVESTIGATING THE OFFICERS.

The Custom House officers have been tearing their hair over the police pouches and their preserves. They tried to induce Chief Crowley to hand over the opium to them but the Chief declared that his men had done the work and he proposed that they should get the reward. It is in open secret that the Custom House officers received a warning from one of their Hongkong spies that an attempt would be made to smuggle in opium by the City of Tokio on this trip. Hence an extra force of inspectors was detailed to watch the vessel. On Tuesday night there were five inspectors on the boat and one on the wharf, yet an entire ton of opium was loaded into the hold of the boat. The town House boat which should have been patrolling the bay off the stern of the steamer did not go out that night because the officers detailed for that duty declared that it was too rough for an open boat! These singular circumstances have awakened the suspicions of Federal authorities and investigation of the officers has been begun. There would certainly seem to be crookedness or criminal carelessness somewhere in this matter.

SONORA.

A COUNTRY OF UNSURPASSED FERTILITY.

Hermosillo—Its Civilization and Prosperity—Magnificent Mining and Agricultural Resources.

Mr. Simon Levy, commission merchant, recently returned from an extended trip through Sonora, Mexico, and favored us with a few observations, which will doubtless be of interest to our readers.

Mr. Levy went by stage from Tucson to Altar, a distance of 160 miles, passing through a good agricultural country, interspersed with rich pasture lands and occasionally a belt of fine timber. He took another stage at Altar for Hermosillo, a distance of 180 miles, the country traversed perceptibly improving in character all the way to Hermosillo. From Hermosillo to Guaymas Mr. Levy went by railroad, through a country unsurpassed in fertility and offering very favorable inducements to settlers of whatever nationality. Good crops of corn, barley, wheat, beans, etc., can be raised in every part of Sonora, and the soil is admirably adapted for growing the finest grades of cotton, and is sufficiently moist, ordinarily, without a particle of irrigation. Land is cheap, and large numbers of American and European farmers are pouring in with the intention of locating permanently. Californians have very crude ideas with reference to the civilization of the people of Sonora, which should be dispelled. Mr. Levy affirms that the people are far more intelligent and refined than is commonly supposed, and are alive to the best interests of the State and country generally, hailing with unfeigned delight the railroads and many other innovations which are rapidly developing the magnificent resources of their country. Strangers meet with cordial welcome, and life and property are as safe in any part of the United States. He was astonished to find the country so far advanced in general civilization and prosperity, and believes Sonora will continue to thrive permanently with the development of its magnificent mining and agricultural resources. The railroad running from Guaymas to Hermosillo is a splendidly equipped road comparing favorably in its road-bed, cars, management, etc., with the best European roads. A peculiar feature of the flat cars is noticeable in the fact that they are made completely of iron manufactured in England, which we must offset by securing a reciprocity treaty and beat the Yankees by Yankee ingenuity, viz, making better cars for less money. The railroad will soon be completed to Magdalena on its way from Guaymas to Tucson. Hermosillo is the capital of the State of Sonora, and has a population of about 14,000, principally Mexicans and European Spaniards. The merchants are uniformly affable and courteous in their manners and strictly honorable in their dealings. Business of every kind in Sonora is conducted on intelligent and comprehensive principles, the merchants of Guaymas and Hermosillo especially carrying immense stocks of merchandise all the year around, those towns forming distributing centers for the interior towns and villages. Mr. Levy reports that Hermosillo assumes the airs and importance of a gay and magnificent European capital on a small scale, notably in its splendid equipage, and the excellence of the military maneuvering and music. Schools are plentiful, and the Government will shortly erect a Normal School to cost \$1,000. Most of the buildings are one and two-story plastered adobe, with an occasional stone building. There is a stronger disposition in Sonora generally to emulate American habits and customs since the railroads have given the people a truer insight into the American character.

SOCIETY DOINGS.

The Social Events of the Past Week Chronicled.

A QUIET WEEK AFTER THE HOLIDAYS.

Last Monday a good day for the merry callers—Gillmore-Bell and McClusky-Crocker. Nuptials—Personal Mention.

During the week after the holidays the devotees of Society as a rule are more quiet than any week in the year. But it has been the exception in the city of love, oranges and climate, this year. Marriages and engagements of the affection have been scarce, but there have been numerous little parties, etc., throughout the city. Last Monday was a day to be remembered by many, as the editorial staff of this paper will testify before any court of ladies in the world. There was one queer combination out as some of the ladies can give proof of.

THE ORPHANS.

The entertainment at the Orphans' Home last Monday, given by the managers of that praiseworthy institution, was more successful than the ladies ever hoped. The Home has been running only a year, but will rank with any institution of the kind in the State. There are now thirty-one children, ranging from ten months to twelve years of age. They are all healthy, happy and fat, which is good proof that the ladies understand the business thoroughly. There has not been a case of sickness since the Home was opened. The exercises consisted of vocal solos and recitations by the children. They were well trained, and some of them have good voices. After the programme was carried out the little ones were conducted to the large school room, where a Christmas tree loaded with presents donated by the citizens loomed up before the astonished and happy gaze of the little orphans, brightening their eyes and filling their sorrowing hearts with joy and gladness. The presents were quite numerous, and every child had a number suited to his or her condition, and if their Christmas did come late we doubt not but they were philosophers enough to think it was "better late than never." After the presents were disposed of the matron, Mrs. Ransom, a kind-hearted, motherly lady, showed such of her guests as chose, over to the Home. The rooms were neat as new pins. Every child has its own separate little cot, and ranged about the rooms with their snowy companions they looked as though they ought to be in the land of the motherless little ones. The third floor, or attic, which is lighted and well ventilated by dormer windows, is set apart for the use of the boys. Here are their cots and personal clothing. Everything seems in perfect order and kept in the best possible condition. One matter we would call attention to is the fact that but a single entrance to the upper story, and that the children are not allowed to go out alone. The authorities should see that another stairway leading from the upper story outside the building is provided. In case a fire should break out in the vicinity of the single exit, a terrible calamity would inevitably result, and accidents are liable to occur at any moment.

A TESTIMONIAL.

Daniel Ullman, for a long time the popular Secretary of the Los Angeles Gas Company, was presented by his old employers with a very handsome stem-winding gold watch, a recognition of his services that was certainly well merited by that gentleman, who has worked faithfully in the interest of his employers and highly satisfactorily to the public at the same time.

Dan says he is going to hand it down to future generations as an heirloom of the Ullman family. The following letter accompanied the timely gift:

Daniel Ullman, Esq., Secretary Los Angeles Gas Company.

DEAR SIR:—By express to-day I send a package to your address, and in behalf of the stockholders of the Los Angeles Gas Company have to request your acceptance of the same as a testimonial of appreciation of your attention and zeal in the discharge of your duties as Secretary and General Manager of the Company during the past five years.

Wishing you success in your new business, I remain truly,

CH. H. SIMPKINS.

THE NEW TERM.

The University commenced its new term Monday morning with a good representation of previous students and quite a number of new ones from this and other counties. At the request of President Board the exercises were conducted by Elder J. W. Webb, who will address the students and friends of the institution on the theme of "Temperance."

A SURPRISE PARTY.

A surprise party took place last Monday evening at the residence of Major Furrey on Fort Street. It was given in honor of Miss Minnie Green, a sister of Mrs. W. C. Furrey. It was a genuine surprise, the secret having been kept from Miss Green until her friends and admirers commenced arriving. It was a very enjoyable affair, dancing and a general good time was kept up until a late hour.

GILMORE-BELL NUPTIALS.

Among the several events of the first week of the new year, in Los Angeles, was the marriage of Arthur F. Gilmore of the firm of Carter & Gilmore, and Miss Mary E. Bell, daughter of J. G. Bell and niece of J. E. Hollenbeck. The ceremony took place at the residence of the bride's parents Wednesday evening in the presence of a large number of invited guests. The ceremony was conducted by Rev. J. W. Ellis. Among the guests present were Mr. and Mrs. J. E. Hollenbeck, Mr. and Mrs. E. T. Cleland, Miss Lizzie Hollenbeck, Otto Wolf, Mr. and Mrs. W. Talbot, Mr. George E. Hollenbeck, Miss Nell Carter, Mr. and Mrs. C. J. Ellis, Mrs. Catherine M. Gilmore, Mrs. Arabella Thompson, Otto F. Bell, Miss Kittie Thompson, Mr. and Mrs. J. W. Means, Mr. and Mrs. J. G. Bell, Mr. and Mrs. G. E. Long, Geo. E. Bell, Silas Hollenbeck, Miss Maud Bell, Edward and Letitia Talbot, Bland and Ora Means, Alfonso Bell and J. Worthington Means. The party sat down after congratulations, to an enjoyable repast, worthy the host and hostess of the evening. During the absence of the party at the refreshment table, the presents to bride and groom were graciously displayed in the parlor. Among the worthily bestowed gifts were from Mr. and Mrs. C. J. Ellis, an elegant silver butter knife; from "Grandma," Mrs. Gilmore, aged eighty-four years, set silver spoons; Miss Nell Carter, a beautiful hand-prepared lamp shade; from Mr. and Mrs. Carter, a cunningly constructed clock—a thing of beauty and utility; from Mr. and Mrs. T. E. Hollenbeck, an elegant morocco case filled with silver spoons, knives and forks, the open spaces among the pieces being occupied by yellow pieces of the denomination of tens. The evening was a joyful occasion and the affair quite up to the modern standard of Los Angeles weddings.

McCLUSKY-CROCKER NUPTIALS.

The marriage of Isaac McClusky and Miss Susan T. Crocker, at the residence of S. J. Mathes, Thursday evening, was an unexpected event to the friends of the

bride, who has been a resident of this city for a year past. The bridegroom is an attaché of the Central Pacific Railroad in the northern part of the State. The ceremony was performed by Rev. J. W. Ellis in the presence of the following named guests: Miss Minnie Baxter, Miss Mary E. McDearmid, Miss Gracie Mathes, Mrs. S. Strohm, and Miss Susan Mathes. Refreshment and merriment was the order of the hour, with the usual slipper and rice send-off by friends.

AT THE COSMOPOLITAN.

There was a quiet little marriage at the Cosmopolitan Tuesday night. Justice Fisher acted as master of ceremonies. The happy couple were made one in the presence of a few close friends. Wm. Thompson was the lucky man, and Donna Juanita Ze—; but let it go; her name is now Thompson, and may her life be long and prosperous.

ON THE WING.

What an Old Resident Has to Say About Rain Matters.

WE WILL HAVE RAIN ENOUGH YET.

Waiting for the Train—A Useless Appendix—The (Traveller's) View of the City Council Reviewed.

EDITOR TIMES:—As the rain question is at present one of paramount importance, and one in which much interest is taken by all your readers, the following chat with an old resident of your county may not be wholly inappropos:

WAITING FOR THE TRAIN

Is an ordeal at no time a pleasing one, unless the tedious is whiled away by some incident occurring to draw one's attention from the slowness with which the minutes drag on. Thursday evening the Southern Pacific was late one and a-half hours, caused by the Atchison, Topeka & Santa Fe being some seven hours behind time. I had my umbrella in my hand, lounging round and watching the new improvements that were being made at the depot, thinking of the time when it was only a miniature of what it is to-day. An old acquaintance of some twenty-five years' standing came forward, and laughingly said: "You are evidently a stranger here, or you would not carry that

pointing at the same time to the umbrella. "Well," I said, "it did rain here some weeks since, though I must say it has not since I bought it. What do you think of the prospects of rain?" "Oh! we will have rain enough yet, these croakers nevertheless. No one can tell here anything about it, but I think—and I have been here twenty years—that it will be realized yet. The croakers begin just after harvest, and continue till the country is flooded. We can do with less rain than people generally suppose. Our fruit interests are very large, and it is grown and matured entirely

INDEPENDENT OF RAIN.

By irrigation, which is after all the best, as it is always available for that purpose. Of course we have the sheep and grain interests which rely on the rain; those who witness his departure with many regrets. Major H. C. Weiner of the S. H. army, left town last night for a few weeks vacation. He expects to have a high time with the "Frisco" bloods on Bundy's account.

THE BOARD OF EDUCATION.

The New Board Meet and Elect Officers for the ensuing Year.

The newly-elected Board of Education met last night for the first time. Dr. Widney, the President of the outgoing Board, presided.

The regular monthly business was passed.

Dr. Lindley offered a resolution of thanks for the able manner in which Dr. Widney had presided over the Board. It reads: Resolved, That we tender our sincere thanks to Dr. J. P. Widney for the able and impartial manner in which he has, for the past two years, performed the duties devolving upon him as President of this Board.

It was unanimously adopted.

The election of officers was then taken up.

J. Bronson was elected President; Dr. Kurtz was elected Secretary.

President Bronson then took his seat. Superintendent Guinn, of the public schools, reports:

Two vacancies now being supplied by substitutes, and the new members not being sufficiently acquainted with the application, it was deemed best to postpone filling these vacancies for a few weeks.

The application of Mrs. Lamb, J. V. York, W. S. Hew and Hannah E. Smyth, all received and placed on file. The bill \$24 due Joseph Grebe for services as janitor of meeting room allowed.

The following were appointed to select a place of meeting: Dr. S. Crawford, Dr. J. P. Widney, and Dr. R. W. Ellis.

The board then adjourned subject to the call of the President.

SUNDAY AHEAD.

The Sunday Closures of Downey Convict a Saloon Keeper.

The Sunday closures of Downey are victorians. They have met the enemy and he is theirs. It fell out in this way. They have had some trouble with the festive saloon keepers of that place and got out a warrant against one Haskell for keeping open on Sunday. His trial came off yesterday before Judge Williams of that place. He was defended by Stephen M. White of this city, who was employed to conduct the case by the League of Freedom, of Los Angeles. There was no question as to his having kept his place open and the Court convicted him. The people of Downey have taken up the fight and will have one day of rest out of the seven if they keep up their lick. The citizens of Los Angeles should take this as a lesson and push the fight to the end here.

BOUND FOR ALCATRAZ.

Deserters on their way to Uncle Sam's Hotel.

Thomas Gardiner, who we hope will keep a warm place in his heart for the TIMES, sends us an interesting letter written on the train while on his way to San Francisco, Friday, which will be found elsewhere. He also sends the following bit of news: "There were nine soldier convicts in chains on board, en route to Alcatraz, where they go to serve out the various periods they have been allotted according to the neutrality of their crimes, none of which are more serious than desertion or theft. They belonged to different companies in Arizona. 'Machache,' an Indian scout who deserted and was in some manner implicated in the Cibola massacre and under sentence for life is also on board. The other Indians who were connected with this tragedy are now at Camp Grant waiting to undergo the extreme penalty of the law."

ABOUT TOWN.

Two drunks were up before Judge Adams yesterday morning and received the usual dose.

The baggage-room at the S. P. railroad depot is being enlarged and undergoing a general renovation.

The P. C. steamer Ancon was an hour and a half late in arriving at San Pedro yesterday morning.

Ale Canly, a common drunk, was taken in last night by officers of the city who found him taking a nap on the sidewalk.

Quite a number of men are employed by P. Baundry in laying new water-pipes from his water works to the reservoir.

The police made a raid on a Ching-to-go shop to-day, and turned six of the pig tails and their layout. A small amount of money was found on the table when the arrest was made. Officers Sands and Celis made the arrest.

It is encouraging to learn that some of our carriage and wagon manufacturers are shipping Los Angeles-made wagons to points 150 or 200 miles off. One firm made a shipment to Big Pine, Inyo county, a few days ago.

An Accident.

One Rose, while walking along one of the incomplete wharf stringers at Fayal City Friday evening missed his footing and fell to the ground beneath a distance of fifteen feet. In falling he struck against one of the cross beams, seriously injuring his spine and his other side.

FOR SALE,

A ONE HALF INTEREST IN THE

Horne & West

ELECTRO-MAGNETIC BELT.

THIS IS THE same belt which is now manufactured by W. J. Horne, and which he is extensively advertising as the "W. J. HORNE BELT." This Belt was invented and patented by myself. Afterward I assigned one-half interest in this Belt to W. J. Horne, which he now owns in common with me. This Belt has taken two premiums at State Fairs, but as I have invented another BELT, of double the power of the HORNE & WEST BELT, and much superior to it in every respect, and which costs less and is for ONE HALF the cost of the old Horne & West Belt, I will sell my one-half interest in the Horne and West Belt cheap for cash. Any person wanting business call at my
